

## CUSTOMER TESTIMONIALS

### Healthcare:

"Minimizing exposure to pathogenic organisms is paramount in the medical world. **The Surface Antimicrobial System** is so intriguing because it is a long-term and safe solution to inhibiting the growth of microorganisms on any surface or fabric in a medical environment."

*Dr. David DeAtkine, MD -Endocrinology & Internal Medicine*

### Government:

"We use **SurfaceAide** antimicrobial products because being proactive in the prevention of possible infections to our soldiers and their families is responsibility we take very seriously."

*Eric Hildreth, Facilities Director - United States Army, Fort Bliss, TX*

"Here at the Buckner Physical Fitness Center we believe that we serve the greatest customers in the world. We take immense pride in providing them with top notch facilities and equipment. Without **SportsAide** we would certainly fall short of that goal."

*Matt Livingston, Fort Richardson, AK - Sports and Fitness Director*

### Sports:

"Health and safety is always a priority, we wanted to start this season knowing we've done everything we can to keep our athlete's on the field."

*Brad Childress, Head Coach - Minnesota Vikings*

"As the first major university to apply **SAS** to our facilities, Virginia Tech has been so pleased with the results that we are applying the **SurfaceAide** treatments to additional facilities.

Our proactive steps towards defense against microbial contamination are setting new standards for athletics across the nation."

*Mike Goforth, Director of Athletics Training - Virginia Tech University*

"We evaluated every aspect of our team's operations and determined that we could integrate this **proactive antimicrobial measure** into every surface and washable fabric that our wrestlers have a lot of contact with.

Treating our wrestling room, competition mats, locker room, showers, and bathrooms is just one portion of the comprehensive application.

We'll also have our student athlete's head gear, shoes, towels, and workout gear treated with this non-stop protection from the growth of bacteria."

*Brendan Buckley, Head Wrestling Coach - Columbia University*

"Half way through the season, I can say without question that this team has experienced the lowest number of skin infection breakouts since I've been coaching. The evidence is pretty clear to me.

We use the **antimicrobial system** and we don't have any problems. We don't, and we have problems."

**Steve Garland, Wrestling Head Coach, University of Virginia**

*Applied CSG's antimicrobial system to his mats in September 2008.*

"Using this **antimicrobial system** has had such a positive impact on our program.

This season my team has had significantly fewer skin ailments than last year. I'm much more confident that our team won't be hit hard by skin issues, which makes it so much easier for the team to focus on wrestling."

**Brian Smith, Wrestling Head Coach, University of Missouri**

*Applied CSG's antimicrobial system to his mats and weight room in August 2008.*

### **Education**

"I'd like to see an island-wide campaign to have facilities treated with this **SAS antimicrobial technology**,"

*Ed Ehmann, Superintendent - Smithtown Central Schools, Long Island, NY*

"The administration of Ward Melville High School understands how important it is to take a proactive approach to issues that can occur because of microbial contaminants such as bacteria and fungi.

This **system** is a long-lasting, 24/7 solution to bacterial growth in facility that is used throughout the day and into the evening by our wrestling team, physical education classes, and other community activities."

*Don Webster, Director*

*Ward Middle School, Long Island, NY*

### **Home**

"My 13-year old son acquired MRSA in his middle-school locker room.

I'm a **FabricAide®** and **Cover3Kit™** user because it's the best preventative measure out there in the fight against MRSA. I use **FabricAide®** in my bed linens, towels and all my son's clothes"

*Shauna Pendleton, mother - Washington*

"I used **FabricAide** on my dogs pet bed and it took out the "dog smell" right away. The best part about it is that the smell still has not returned! "

*Blythe Moran, mother - Michigan*
